

ABU NASER KAYES

Front End Developer

E-mail: infinitykayes@gmail.com

Github: [abunaserkayes0.github](https://github.com/abunaserkayes0)

Location: Mirpur-2

Contact No: 01744-659976

Livesite: abunaserkayes.live

A dedicated and passionate Fronted Web Developer with over a year of industry experience. Proficient in a comprehensive range of technologies including JavaScript, React, Next.js and Familiar with Node.js, Express, MongoDB, Mongoose. Proven expertise in creating, developing, designing, and maintaining dynamic and responsive web applications.

TECH EXPERTISE :

Languages: JavaScript(ES6)
ForntEnd: Html,Css,Ant-Design,TailwindCss,Javascript,ReactJs,NextJs,
BackEnd: MongoDB,Mongoose
Tools: Git & Github,Dev-Tools,VsCode

WORK EXPERIENCE:

Front-End Developer | GoJustitech

01/11/23 – 29/12/24

Achievements/Tasks

- Specialized in building responsive, reusable, and user-friendly websites using modern web development technologies like HTML5, CSS3, Ant-Design JavaScript, and front-end frameworks (e.g., React & NextJs). Adept at translating UX/UI designs into clean, functional code.
- Created mobile-first, cross-browser-compatible designs that maintain consistency across various devices and screen sizes.
- Improved web performance through lazy loading, code minification, and server-side rendering, ensuring fast load times and excellent user experience.
- Proactively identified and implemented solutions to enhance web development workflows, leading to increased efficiency and innovation in project outcomes.

PROJECTS:

Tourist Spot Management Application

Features:

- Built with React Js for optimized web performance.Utilizes Firebase for secure user authentication.Integrated with MongoDB as the database.
- Implement dynamic rendering of hotel listings and details.Incorporates best practices for data protection.
- Designed for future scalability and the addition of new features.Includes user account management for booking history and preferences.Comprehensive reservation and availability checking functionality.
- Additional feature of this application implement react-typewriter and react-toastify
- Uses Context-API and handles authentication.

ACADEMIC QUALIFICATION:

B.Sc in CSE (On-Going)

Bangladesh University of Business and Technology(BUBT)
Mirpur-2.

Computer Science & Engineering(CSE)

Last Semester GPA : 3.50

On Going 3rd semester(2nd year)

Passing Year : 2027

Diploma in Engineering:

Kushtia Polytechnic Institute , Kushtia.

Dept. : Computer Technology

CGPA-3.87

Passing Year : 2023
