PROFESSIONAL SUMMARY

Frontend Developer currently at SkillersZone LLC (Mar 2025 – Present), with prior engineering experience at GoJustitech. Builds and maintains scalable, production-grade web applications utilizing TypeScript, Next.js, React.js, and Tailwind CSS, with hands-on backend expertise in Node.js, Express.js, MongoDB, and RESTful APIs. Adept at translating complex UI/UX designs into pixel-perfect, accessible interfaces with a strong focus on client-side performance, modular code architecture, and seamless cross-platform user experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript
Frontend Development: React.js, Next.js, Redux, Redux Toolkit, RTK Query, TanStack Query, Redux-Persist, Tailwind CSS, Ant Design, Axios, Husky, Responsive Design
Backend & Databases: Node.js, Express.js, MongoDB, Mongoose, RESTful APIs, JWT Authentication
Tools & Workflow: Git & GitHub, GitHub Actions, VS Code, Chrome DevTools, Postman, Vercel, Netlify

PROFESSIONAL EXPERIENCE

Front-End Developer Mar 2025 – Present
SkillersZone LLC Dhaka, Bangladesh

Spearheaded frontend engineering for scalable web platforms including the [FollowHR](#) ATS suite and [FollowHR Jobs](#) portal, translating complex UI/UX wireframes into interactive, accessible interfaces utilizing HTML5, CSS3, JavaScript, React.js, Next.js, and Ant Design. Engineered robust frontend optimization through lazy loading, code splitting, asset minification, and server-side rendering (SSR) to accelerate page loads and elevate SEO benchmarks, while enforcing strict mobile-first design standards to ensure seamless cross-browser consistency across all desktop, tablet, and mobile devices.

Front-End Developer (Intern) Jan 2024 – Jul 2024
GoJustitech Dhaka, Bangladesh

Developed responsive, reusable, and user-centric web applications using HTML5, CSS3, JavaScript, React.js, Next.js, and Ant Design. Translated high-fidelity UI/UX design mockups into functional, scalable interfaces while adhering to modular, clean code architecture. Engineered mobile-first, cross-browser-compatible layouts and improved client-side performance through lazy loading, code minification, and server-side rendering (SSR), driving noticeable reductions in initial page load times and elevating user engagement.

PROJECTS

FollowHR – AI Recruitment & ATS Platform followhr.com
Next.js, React.js, TypeScript, Tailwind CSS, RESTful APIs Production Platform

- Architected candidate screening workflows, interactive hiring pipelines, and recruiter dashboards using Next.js, TypeScript, and Tailwind CSS.
- Engineered responsive UI components, candidate evaluation analytics, and RESTful API integrations to streamline enterprise recruitment operations.

FollowHR Jobs – Job Board & Candidate Portal followhrjobs.com
Next.js, React.js, TypeScript, Radix UI, Redux Toolkit, Tailwind CSS Production Platform

- Built fast, SEO-optimized public-facing recruitment portal with advanced job filtering, dynamic routing, and streamlined application flows.
- Integrated centralized state management via Redux Toolkit and implemented accessible interactive components with smooth micro-animations.

EDUCATION

Bachelor of Science in Computer Science and Engineering (B.Sc. in CSE) 2022 – 2026
Bangladesh University of Business and Technology (BUBT) Dhaka, Bangladesh
